**How To Access The Trading Room
Of A Master Trader**

With Peter Elsworth

Come And Join Us And Let Us Show You How You Can Learn To Trade The Market by Following the Live Trading Performance of our Master Trader Every Day!

The E minis share index market is now regarded as the most successful financial product ever launched with up to \$40 Billion per day traded!

Traders International, the world's leading educator of E minis trading wants to prove to you that **YOU can trade** a market and realistically make a **5% to 10% return** on your investment every day. We'll even teach you in just a few short hours how you can recognise a signal that in the past four months has delivered on average **over 90% ROI per month**.

Are you eager to become a successful trader and not sure where to start? To make consistent profits trading the E minis you do not need a large start up capital or have an in depth knowledge of the financial markets. You need a proven, practical and sound trading method and money management plan. Peter and Andrew explain this in a format that is clear and concise.

During our Secrets to E Minis DVD you will learn:

- The secrets of trading the TIMES methods high probability signals.
- Why TIMES high probability signals consistently give traders an opportunity for profits every month, and how you can profit from them.
- How to develop a winning mindset to become a consistently profitable trader.
- Why you don't need to know anything about the markets to be a successful E Minis trader.
- How you can access Traders Internationals live trading room.
- Watch footage from the Trading room and E Learning program.
- How to gain access to brokers who only charge \$5 USD round trip commission.

To learn more about how you can take advantage of the excellent trading opportunities offered in the emini markets, simply visit: www.universalsolutions.com.au/ti and request a introductory DVD where Peter will take you step by step through the TIMES Trading System.

Emini's & the TIMES Trading System

Afshin Taghechian is President and Founder of Traders International Corporation and is one of the world's most sought after presenters on trading systems. He is the developer of the revolutionary TIMES trading method which has quickly gained popularity among trading professionals. TIMES has been rated #1 S&P 500 daytrading system by Stocks & Commodities magazine's "Readers Choice Award 2003". Afshin has presented to numerous organisations such as Day-Traders USA and the American Association of Individual Investors (AAII).

TIMES combines one of the most powerful trading methods ever developed to trade the S&P 500, Nasdaq and Dow E-mini indexes and full contracts with sound money management techniques. This combination gives power and accuracy to the trader, which previously had only been enjoyed by the floor traders. We offer the TIMES method, with winning signals every day, through state-of-the-art training and professional support for maximum profit potential. The intensive training workshop is a step-by-step process on how to build and manage financial assets by short-term trading the E-mini indexes.

The opportunities that you can possibly achieve:

- A career opportunity as a professional trader to trade your own account.
- An unlimited income opportunity, career or home based business opportunity.
- Becoming a better trader to manage your financial assets.

Afshin, who has a degree in International business, has a keen insight and thorough understanding of technical analysis and has successfully used this knowledge in unique and powerful ways. His organisation, Traders International, provides state-of-the-art instruction and professional live support to maximize your mastery and provides you with the tools you need to become a successful trader. His extensive background in psychology allows him to reach into the collective mind of his audience and give them a clear understanding of the vital importance of discipline and money management in trading. Moreover, they understand the steps by step process in clear, concise terms; mixed with analogies and examples to achieve the final goal. His students learn about proper trading "mindset", money management, and the right trading method.

What are the E-minis?

In September 1997, the S&P 500 E-mini contracts were introduced by the Chicago Mercantile Exchange, followed by the NASDAQ 100 and, finally, the E-mini Dow futures by CBOT in March 2002. The advantages of trading these markets include the unique combination of high volatility, high liquidity, high leverage, and the ability to trade with 100 percent electronic order execution platforms, which negates the need for pit or floor broker involvement.

Add to that minimal slippage, tight spreads, no uptick rule, ability to short as easily as going long, absolutely no market research to do, much less time consuming than other futures, very low commissions, great short-term tax advantages, hedging opportunities, and these markets are fair and open so you are not worried about corruption, price manipulation, and insider trading.

The average price movement of the S&P 500 E-mini market is about up to 12 points per day and each point is worth \$50 per point per contract. You can trade as many contracts as your margin account and financial temperament can handle. The S&P E-mini index will typically move those two little points in about five to twenty minutes (on average).

Wait! That's potentially a five to ten-percent return on investment in practically a blink. Can that be? Why do you think E-mini's have been called "the most successful trading product ever launched in the financial industry?" To be fair, you can lose the same amount if the market goes against you. The key is using a system to manage the risk and increase the potential so you experience much more winners than losers.

See for yourself how frequently trading opportunities are identified. Take a look at the one-minute chart of the S&P 500 and you'll notice something. The index may move up or down at least two points or more every 5 to 20 minutes. By setting the profit target at two points from your fill price, you have a very high-probability target to begin with based on price movement characteristics of the index. This type of price fluctuation provides excellent trading opportunities over and over again throughout the day.

FIGURE 1: One-Minute Chart of E-mini S&P 500

Take a look at some of the feedback from current Traders International Clients...

"I have developed my own trading plan and the signals that I use in my trading plan are well established signals that have been well tested by Traders International staff. These testing procedures have shown to my satisfaction that they are successful. I am impressed by the findings shown on the Excel Spreadsheet that Rich Malcolm produced for the Non Trending Head and Shoulders. Utilising these findings has enabled me to add a signal to my arsenal, what times to use this signal and what are the best profit and loss margins to use".

Gordon Kemp - Silver Graduate

....about the trading room

"I think it is really fabulous and cannot think of anything extra that would improve it."

Ian Thomson Silver Graduate

"I think it is very helpful and I'm happy the way it works, it always seems to be developing for the better. Keep it up!"

Steve Sixsmith Silver Graduate

"The professional reinforcement of the signals and trading concepts taught in the E-Learning Course is first Class".

Gene Walker Silver Graduate

"I can't fault the trading room. It gives us good calls."

Glenn Eisenhauer Silver Graduate

"I found the E-Learning program easy to understand. Paper trading is the best learning curve anyone can go through."

Vasilia Tsougranis Bronze Graduate

"I am very happy over all and satisfied that this is the right thing for me. Andrew has been helpful with my questions and Sue has also helped over the phone. Looking forward to getting up to speed on the next level very quickly."

Andrew Jowsey Bronze Graduate

"Great stuff. All back up and support offered to students is exceptional. Keep it up."

Luciano Leonforte Bronze Graduate

"I found the course well structured and easy to follow. Not too sure how it could be improved."

Simon Taylor Bronze Graduate

".....I think this program is brilliant. You offer a lot of support for the newbies. Thank you."

Timothy Allen Bronze Graduate

"I can't see how you could improve it! All the information is there for the taking. Accessible anytime and as many 'revisits' as necessary and Rich Malcolm's voice is very easy to listen to!! He's very clear and well set out."

Nicola Iversen Bronze Graduate

Hello Peter,

I am a new client and recently attended your seminar at the Mecure Mascot. I have registered to receive your online seminar which I am booked into for the 9th Jan. I have been paper trading since your seminar, reading what I can and trying to learn as much as possible.

My husband works thru the night and I don't sleep so I have been trading your E Minis on the live US market and can't believe how much money I have been making on paper and what trends I have learnt (even when they go to morning tea, lunch time, afternoon tea) I believe I am very conservative at the present, as I am waiting for your live seminar to confirm my learnings.

Thank you for your teachings so far as I am very excited to start trading live I have all the forms from Halifax and am now opening the account and looking forward to starting.

Once again thank you and I will look forward to the live seminar and future trades.

Tammy Armitage

Really enjoyed the intro event on Sunday, because you are genuine & speak from the heart was the most impressive thing for me... thank you!

.....I have recently completed a CFD trading course (hedged with option protection) which I'm doing ok with, early days yet, but am very excited by the thrill of the fast trades etc with these e-minis... can't wait to get into the live training Friday night!

Anne Murray

Andrew,

Just wanted to let you know, our Mindset presentation is perhaps the best half an hour I've ever spent on trading. Well done! you have distilled the very essence of what were are trying to achieve.

Adam Mitchell

"Because I didn't come from a trading background of sorts, it has been so crucial that I receive a tremendous amount of support and let me tell you Andrew that you guys at TI have exceeded my expectations."

"I have spent a lot of money on trading seminars over the years and this one was the simply the best. I was clear and to the point. I can't wait to get started"

"I really appreciate the support that you and the team at Traders International gives - it is much better than I had hoped for. Thank you!"

Rich,

The new daily video recaps are OUTSTANDING...and Andrew's mindset video just superb!

I am going to renew my membership to TI and I look forward to seeing you in the trading room.
Happy trading,

Jim Mills

Hello Andrew

The Mind-Set video is fantastic! Thanks so much for your input, your time and everything else that you put into it! I really appreciate all your teaching.

I've taken the 240 Day Challenge on board and am 2 days into it at this point. So a long way to go but feel really good about it.

Regards Margot Finberg

First of all, thanks a lot for all the information and support received since I joined TI. Compared with all the other programmes I've been in it's by far the best. Being a beginner I still have heaps of questions to ask and the willingness to learn, but I'm not afraid as long as I know I can relay on such a good service based on a tremendous work.

Again, all the best to you and Rich, it's such a pleasure to spend night after night after night listening to you (even though I not yet have an account) and absorbing as much information as possible and reflect on your wise thoughts.

Aurelian Alexandru

Hi Rich, as I complete my first two weeks with TI, I wanted to take a minute to commend you for the outstanding job you do as leader of the Trading Room. The consistency, thoroughness and enthusiasm you manage to project a full eight hours a day is remarkable; and on top of that, you research and document the methodology.

Just do not go near kryptonite. And while we could hear more from Andrew, everything he says is right on target. Whether I eventually reach my goal of consistently making 1.5 points a day still remains to be seen. However, I think I have seen enough to this point to conclude that if I don't reach it here, it is unlikely I can reach it anywhere.

John Ford was right when he said you guys are a class act.

Sincerely, Jaime Behar

Hi Andrew,

My answer to your email below is:

You and the team cover just about all questions I have ever had...I haven't really needed to ask anything...All queries regarding methodology, strategies, psychology.. (you name it) are thoroughly covered by you all.

Andrew, I have to say Traders International, goes far beyond the 'normal' business procedures (expected from most institutions) in ensuring that (us) clients are satisfied.. I feel 'honoured' and blessed that I was lead to your company.. I have no doubt that what I have planned for myself (trading wise) will be a total success under your guidance.

Thank You Very Very Much... Jean

Lastly – I have been trading for 5 years and have done a significant number of courses – this is the first company I have seen where the folk are genuinely interested in helping people become traders whilst having some fun trading at the same time. Great to see.

Keep up the good work.

Hi Peter,

I met you at the workshop you conducted in Auckland at the end of January, I spoke to you about the possibility of conducting workshops such as the one I attended, you mentioned I should send you a C.V and some background info which I will do when I get closer to my success in trading the TIMES method.

The reason I have contacted you is to say I was highly impressed with the format and the way you conducted the workshop, I have since purchased the course and am enjoying it immensely.

I have had some minor teething problems(to small to mention) and have been astounded at the speed of the response and the level of service compared to any other service I have subscribed to, so much so that I had to contact you to inform of this. If this is what the future holds for Traders International then it is certainly a company I would be proud to be associated with. Thank you again Peter, I look forward to talking with you more in the future.

Regards

Bryn Forgie
